DETAILED ACTION

1. Receipt of the Request for Continued Examination ("RCE") with minor amendments filed March 02, 2006 amending claims 24, 46 and 64 are acknowledged. Claims 24-26, 30-32, 38-40, 44, 46, 64-66, 68, 69, 74, and 80 are pending in the application and are presented to be examined upon their merits.

Response to Arguments

2. Applicant's arguments filed March 02, 2006 have been fully considered but they are not persuasive. Applicant asserts that neither Fukatsu or Fuerle suggest receiving of price information provided via a network along information by an information provider terminal.. The examiner disagrees. Fuerle discloses an embodiment adapted for transmission of information periodically via the remote terminal receive and display updated stock prices and to charge for those services, where the central processor (network) initiates data transmission to the remote information store which receives the information at regular intervals (see col. 2, lines 14-31; and col. 3, lines 6-28). Thus the rejections of June 02, 2005 are maintained.
